

PRODUCT SPECIFICATION SHEET

XL Lithium Grease - EP 00, EP 0, EP 1

Recommended for lubrication of rolling and plain bearings operating under normal or severely loaded service conditions.

The NLGI semi fluid grades, which are No. 00 and 0, are recommended for "self-leveling" applications or once through centralised automatic or semi automatic lubrication systems.

EP00 Lithium Grease is suitable for the lubrication of enclosed gears and bearings in poorly sealed gear cases and as a replacement for gear oils that cannot be retained in gearboxes due to worn seals.

EP0 and EP1 Lithium Greases are suitable for centralised lubrication systems.
