

## PRODUCT SPECIFICATION SHEET

# XL NEATCUT 'B6670' NEAT CUTTING OIL

Neatcut 'B 6670' is a low viscosity, transparent, extra high performance chlorine free, inactive type cutting oil. It is recommended for high speed machining of free cutting steels, all non-ferrous metals and difficult to machine steels.

It is an excellent dual-purpose cutting and lubricating oil for higher speed machining of free cutting steels; brass, aluminium, copper, etc. in multiple spindle automatics.

The anti-mist formulation prevents the formation of mist in the vicinity of the machine tool, therefore providing a safer more pleasant work environment.
