

PRODUCT SPECIFICATION SHEET

XL NEATCUT 'C' NEAT CUTTING OIL

Neatcut 'C' is a moderately heavy, transparent, non-emulsifying EP cutting oil for use on ferrous metals.

It is an excellent choice for heavy duty machining on ferrous metals for such operations as gear cutting and broaching as well as turning, tapping and threading.

Being high in additive it is particularly suitable for pipe threading by hand or machine. It is unbeatable for use by plumbers for pipe threading.
