

PRODUCT SPECIFICATION SHEET

XL DRAWING OIL 'EC3'

Chlorinated paraffin

For use where extreme pressure operations are encountered, particularly on aluminium, brass and stainless steels.

This product can be used:

- as supplied by spray or brushing during machining or drawing operations;
- diluted with other cutting oils or other hydrocarbons for other drawing and machining operations.

Use undiluted for metal drawing, stamping, etc. and hand application for machining operations.

The product is viscous and is satisfactory for pumping and spraying.
