

PRODUCT SPECIFICATION SHEET

XL MOULD OIL RT 11

Mould Oil RT 11 is a compounded oil, which is blended to be used as a universal tools oil for all types of moulds; i.e. steel, wood, etc. If desired, Mould Oil RT 11 can be diluted with small quantities of kero/distillate.

Mould Oil RT 11 can be applied by spray, brush or by using a swab. For some surfaces, application by using a roller is the preferred method.
