

PRODUCT SPECIFICATION SHEET

XL NEATCUT 'G' NEAT CUTTING OIL

Neatcut 'G' is a very low viscosity, transparent mineral oil designed primarily for deep hole drilling, boring, high speed hobbing and gear shaving techniques. Extreme pressure properties are provided by the high quality fat and free sulfur contained within the formulation to deliver extra cutting assistance for improved dimensional accuracy and finish.

Being a general purpose cutting and grinding oil it is suited to many machine operations including:

- Deep Hole Drilling
- Boring
- Belt grinding
- Gear making
- Gun drilling

Note: This oil is NOT recommended for use on copper and copper alloys.
